States with Certificate of Need programs for hospitals are highlighted in red.

Notes: Includes all operating and non-operating expenses for registered US community hospitals, defined as non-federal short-term general and other special hospitals whose facilities and services are available to the public. Adjusted expenses per inpatient day include expenses incurred for both inpatient and outpatient care; inpatient days are adjusted higher to reflect an estimate of the volume of outpatient services. It is important to note that these figures are only an estimate of expenses incurred (by the hospital to provide a day of) inpatient care and are not a substitute for either actual charges or reimbursement for care provided.
